## Objective

---

Motivated and detail oriented Information technology graduate with hands on experience in programming, project management and hardware management. Eager to begin a career in the tech field and apply theoretical and practical knowledge in the workplace. Possesses strong analytical thinking and problem solving skills. Seeking an opportunity to apply my knowledge, grow professionally and add value to a dynamic organisation.

## Projects

---

- **Pharmacy Management System**

Developed a comprehensive online pharmacy system using C#, HTML, CSS and ASP.NET MVC with SQL SERVER database backend.

The system features user authentication, inventory management, user management and sales reporting functionality.

*Technologies used: C#, ASP.NET MVC, SQL SERVER, HTML, CSS, JAVASCRIPT*

- **Online Barbershop Booking System | C#, ASP.NET Core, SQL Server**

Developed a web-based appointment booking system with user authentication, barber availability, and admin management. Built REST APIs, implemented conflict-free scheduling, and automated booking notifications. Delivered a secure, maintainable solution using clean architecture and tested core booking workflows.
